- Scalable Infrastructure - pay as you grow
- Flexibility to customize client solution based on needs assessment
- Strategically located in risk-averse region

Build vs. Buy...The value of outsourcing a data center rather than building your own

Benefits of Outsourcing: Reduce Your Deployment Costs, Increase Your Availability, Focus Your Staff, Speed Up Your Implementations and Provide Your Company With More Flexibility

Take advantage of an Expedient Data Center and enable your internal experts to focus on your company's business specific applications and rest easy knowing that your data is housed in an enterprise class facility that is being monitored and protected by a team of data center experts. Your company will enjoy all of the benefits of being in a top tier facility without taking on the financial burden of architecting, designing, building and maintaining your own data center. In addition you will have access to Expedient staff who are onsite 24x7x365 to act as remote hands to reduce the number of times that your own staff has to be dispatched after hours. An Expedient data center will act as the foundation for your technical infrastructure, which will free up more CAPEX for IT projects aligned with your core business requirements.

About Expedient

Expedient is part of a network of nationwide data centers which offer a wide range of managed services and network connectivity. These proven managed services combined with reliable and redundant SAS 70 Type II Certified and PCI-DSS compliant data centers, interconnected with a private 10Gbps network, enables Expedient to deliver premier colocation, network and managed services to enterprise, commercial, education and government entities.

Always Staffed Facilities

Expedient operates a 38,000 sq. ft. facility just 5 miles from Boston's financial district. Expedient employees staff this facility 24 hours a day, 7 days a week, 365 days a year. Operations Support Center staff are just 5 steps from the data center floor for remote hands work. Specialized, experienced, and certified engineers are available for consultation. The level of on-staff technical expertise is unparalleled in the region for a data center service provider.

Technical Specifications

Expedient maintains complete authoritative and operational control over this data center facility, working with staff facility engineers, electricians, and contractors to produce the solutions that custom fit clients needs.
