

# Cleveland Data Center - NEO 151

Data Center Services Delivered

Data Centers

- 1 24,000 sq. ft. with a combination of both raised floor and flat floor
- 2 24x7x365 Expedient Operations Support Center
- 3 HVAC: 600 tons of cooling
- 4 Diesel generators producing 2 Megawatts of power, with 4,000 gallons of backup fuel
- 5 SAS 70 Type II Certified & PCI-DSS Certified

## Advantages

- Enterprise grade facility, without enterprise type capital investment
- Scalable Infrastructure - pay as you grow
- Flexibility to customize client solution based on needs assessment
- Strategically located in risk-averse region
- Built to suit environments, including custom floor space, cage, power and cooling layouts

Build vs. Buy...The value of outsourcing a data center rather than building your own

*Benefits of Outsourcing: Reduce Your Deployment Costs, Increase Your Availability, Focus Your Staff, Speed Up Your Implementations and Provide Your Company With More Flexibility*

Take advantage of an Expedient Data Center and enable your internal experts to focus on your company's business specific applications and rest easy knowing that your data is housed in an enterprise class facility that is being monitored and protected by a team of data center experts. Your company will enjoy all of the benefits of being in a top tier facility without taking on the financial burden of architecting, designing, building and maintaining your own data center. In addition you will have access to Expedient staff who are onsite 24x7x365 to act as remote hands to reduce the number of times that your own staff has to be dispatched after hours. An Expedient data center will act as the foundation for your technical infrastructure, which will free up more CAPEX for IT projects aligned with your core business requirements.

# About Expedient

Expedient is part of a network of nationwide data centers which offer a wide range of managed services and network connectivity. These proven managed services combined with reliable and redundant SAS 70 Type II Certified and PCI-DSS compliant data centers, interconnected with a private 10Gbps network, enables Expedient to deliver premier colocation, network and managed services to enterprise, commercial, education and government entities.

## Always Staffed Facilities

- Expedient technicians are on site 24 hours a day, 7 days a week, 365 days a year
- Operations Support Center staff are just steps from your equipment for any and all remote hands work
- Specialized, experienced and certified engineers available for consultation
- The level of technical expertise is unparalleled in the data center service provider

## Features

- SAS 70 Type II compliant facility
- Tier 1 PCI-DSS certified facility, with managed service certification, for your critical e-commerce applications
- Multiple Data Centers connected via 10Gbps fiber optic rings
- Direct access to multiple Tier 1 Internet providers
